

About Frank Burdich:

Frank Burdich is 50 years old and had been a science teacher in a German Waldorf school for 14 years. Frank also has the ability to perceive etheric, astral and spiritual forces and beings using Imaginative and Inspirative cognition. He is now working as a spiritual researcher in a variety of contexts, including food production processes, medicinal preparation, quality testing, eurythmy, coaching, company counselling, etc.

He gives workshops and seminars on super-sensible perception in a number of countries.

For the last three years he has been the director of the Society for Applied Spiritual Research Ltd. (Gesellschaft für angewandte Geistesforschung mbH) On his journey he has found it important to validate his own spiritual experiences and is now able to help others to develop their capacities, which is his motivation for offering courses like this.

Monday 26th November
to Friday 1st December 2017

Private Consultations

About one hour, 100 €
Every day from 15:00h until 18:00h

Please book in advance
at Reception

The consultations will take place
in room number 32

Workshop and Lectures

**26th November
to 1st December 2017**

Sunday 26th November (10€)

Supersensible Perception and its Preliminary Stages

The capacity for supersensible perception can be attained through an individual, personal path of development. At any point in time you are much closer to supersensible perception than you may think.

Possibilities for attaining access to perception of the supersensible are presented in the lecture, and connections with current spiritual research are made. Questions from the audience arising from the lecture can be addressed in depth in a question and answer session.

**Monday 27th November to
Friday 1st December 10:30 - 13:30h (150€)**

Workshop Frank Burdich

A practice-based workshop for the development of etheric and astral perception

Although everyone more or less has the ability to perceive etheric and astral forces, most people are not aware of this ability. This workshop will provide the opportunity for participants to broaden and deepen their capacities.

The workshop will take place mainly in nature and will focus on practical exercises that can lead to the perception of supersensible forces and beings.

The workshop is suitable for people with no previous as well for people who have some experience but are hesitant about their capacities and would like to develop them further.

Tuesday 28th November (10€)

Working Together with Elemental Beings - Grasping the Forces of Nature in their Essence

Reading about elemental beings can leave an abstract impression at first. This lecture imparts a basic understanding of this field and presents possibilities for the perception of these beings. Using current examples from supersensible research, possibilities for working together with these beings, and thus for mutual, conscious development, are shown.

Friday 1st December (10€)

Human Beings and the World Beyond the Threshold – Fundamentals of Perception into the Realm Beyond Death

The dead have not left us. They are still invisibly present in our world and in relationship with us. The lecture presents results of concrete supersensible research regarding the forms of appearance the dead in our environment adopt, and what possibilities of perception are available to us living beings.
