## The Centro

*Strengthen the life forces  
in light, air, sun and sea ...*

Sunshine and warmth make Lanzarote an ideal place the whole year round for guests who are seeking recuperation and convalescence or simply want a relaxing holiday.

Thanks to the fresh trade winds, the summer temperatures only seldom rise above 32° Centigrade (90 Fahrenheit). In the winter months, due to the position of the sun, (28 degrees latitude) the temperature climbs to around 20° Centi-grade (68 Fahrenheit). Hence it is possible to enjoy spring weather and swim in the sea even during the winter months.

In February and March the wild plants become green and blossom almost as far as the peaks of the volcanic mountains.
